Chapter 1 SPU DESIGN PROCESS This chapter of the Design Standards and Guidelines (DSG) explains a typical design process from project initiation through commissioning for a Seattle Public Utilities traditional design-bid-build project. The primary audience for this chapter is SPU engineering staff.

Contents

The chapter notes that there is no one “single” correct design solution to a lighting problem, but suggests that the analytically-focused process outlined in the chapter will lead to appropriate solutions. The goal of the lighting design process is said to be the creation of an efficient and pleasing interior.
