research in any way. in
the course of them is
this digital image
processing lab manual
that can be your
partner.

Besides, things have
become really
convenient nowadays
with the digitization of
books like, eBook apps
on smartphones,
laptops or the specially
designed eBook
devices (Kindle) that
can be carried along

image processing The primary references (textbook) for the topics covered by the experiments are: 1. Digital Image Processing (3rd Edition), by Rafael C. Gonzalez and Richard E. Woods. 2.

Image Processing Lab

To show our image, we use the `imshow()` or `imagesc()` command.

The `imshow()`

Access Free Digital Image Processing Lab Manual

command shows an image in standard 8-bit format, like it would appear in a web browser. The `imagesc()` command displays the image on scaled axes with the min value as black and the max value as white. Using `imshow()`: Using `imagesc()`: We can check the RGB values with (x,y) coordinates of a pixel:
