Timex Expedition Ws4 Review

Timex doesn't intend on the Expedition WS4 being a big investment for watch and outdoor enthusiasts. With a retail price of \$199 it will be a no brainer for some people, and is roughly half the cost of some of the competition. I appreciate Timex's understanding many people in this generation need a bit more incentive to wear a watch.

5.0 out of 5 starsOne of the most solid ABC watches I ever used. Reviewed in the United States on March 1, 2014 this will be a rough review of pros and con of the watch, features that are included and what makes it great compared to other abc watches. When I first got in to these type of ABC watches, there were so many choices.

Up for review today is the Timex WS4, their new entry into the field of 'ABC' watches, which stands for Altimeter/Barometer/Compass. Actually, this one also has temperature, but that's getting ahead a bit. Here are some quick stats: Widescreen shape - unlike the Casio Pathfinder or Suunto Core, this one is shaped to add display via width.
