Fiat Engines - Fiat Twin-Air engine (2010-)

It's the new TwinAir, so called because it has an engine quite unlike anything else we've ever seen before. There are only two cylinders, which is not a revolutionary idea. The original Fiat 500 was similarly equipped.

The Clarkson review: Fiat 500 TwinAir (2011)

Keep your dirt bike or ATV's engine performance at its peak with Twin Air's Powerflow Throttle Kit for faster throttle response and Twin Air's Oil Cooler for a cooler, longer running engine. For easier cleaning and maintenance choose Twin Air's Airbox Cover, Exhaust Plug, Air Filter Bolt and Oil Filter Cap.

the competition for half a century. Today they are available for all Motocross and ATV vehicles, and distributed worldwide. Twin Air filters are OEM-specified for 20+ motorcycle companies.

Twin Air | The Choice of Champions

The Twinair has is distractors, to be fair a lot just don't get it. To get the best out of it, you need to forget what you hear from the engine and keep it pulling around 1900-2100 rpm, you can also lift off the pedal early as it doesn't engine brake as much as a normal engine, so you can glide in gear better.
