Throughout the PC era and well into the mobile phone market, it was semiconductor companies that called the shots while OEMs followed their lead and designed systems around chips. That's no longer the case. A shift has been underway over the past half decade, and continuing even now, to reverse that trend.

Who's Calling The Shots - Semiconductor Engineering

Call the shots was originally an American phrase, first recorded in the 1960s. Call the tune comes from the saying he who pays the piper calls the tune, which dates from the late 19th century. 1996 Sunday Telegraph Britain is no longer run from Downing Street. It's Brussels that calls the shots.
